

Starting Your Beginner Kit

You Need

1 shallow (25 cm) polystyrene fruit box with drain holes in the base, 1 Hessian bag, 1000 Worms. Shredded newspaper or compost as bedding .

Set Up

Lay sheets of newspaper in the bottom of the box.

Wet Bedding Material to the same dampness as the bedding material in the worm bucket.

Put damp bedding material onto bottom of the box on top of the newspaper.

Put worms on top of bedding material.

Dampen Hessian cover and place over worms.

Feeding Your Worm Farm

Feed your worm farm organic scraps from your kitchen, garden or pet droppings.

Do not feed citrus or onion family as it is too acidic.

Do not feed bread or carbohydrates.

Do not feed meat or dairy products.

Feed small amounts at a time.

Overfeeding will kill your worms!

Use a sprinkle of agricultural lime when needed.

Water frequently.

Keep Out of the Sun!!!
